LS.no-14 Topic : Brad Needs a Budget

Q.I. Read the passage and answer the questions.

Money is something we all use every day, but it is important to know how to spend it wisely. One way to do this is by making a budget. A budget is a plan that helps you decide how much money to spend, save, and share. First, write down how much money you have. This could be from pocket money, gifts, or chores. Then, make a list of what you need to spend money on, like school supplies, snacks, or saving for a big toy. Divide your money into categories like needs, wants, and savings. Always take care of your needs first. These are things you can't do without, like food or clothes. After that, you can spend some on wants, like games or treats. But remember to save a part of your money for the future. Savings can help you buy something expensive or handle emergencies. Finally, stick to your budget. If you see something you like but it's not in your plan, think carefully. Do you really need it? Waiting a day or two before buying can help you make a better decision. Spending money within a budget teaches us to be responsible and avoid wasting money. It also helps us feel proud when we save for something special.

1. What is a budget?

- a) A way to earn money
b) **A plan to spend, save, and share money**
c) A list of things to buy
d) A type of savings account

2. What should you take care of first when making a budget?
