Q1. Multiple choice questions

- 1) Animals that live in warm and hot climates have \_\_\_\_\_  
a) Smooth and moist skin b) tough and less hairy skin c) no skin at all
- 2) Which of these animals are carnivores.  
a) bear b) lion c) giraffe
- 3) What are molecules made up of?  
a) Atoms b) Space c) Matter
- 4) The space between the molecules is called \_\_\_\_\_ space.  
a) intermolecular b) inner c) atoms
- 5) Which of the following is a good example of all the three states of matter?  
a) Water b) Milk c) Juice

Q2. Fill in the blanks.

1. \_\_\_\_\_ animals have gills to breath in the water.
2. An egg has a hard outer \_\_\_\_\_.
3. A monkey uses its \_\_\_\_\_ to swing from tree to tree.
4. A \_\_\_\_\_ has no definite shape or definite volume.

Q3. Match the following

- | A              | B         |
|----------------|-----------|
| 1. Pupa        | Cockroach |
| 2. Nymph       | Butterfly |
| 3. Yolk        | Mammal    |
| 4. Terrestrial | Embryo    |

Q4. True or false

- 1.Liquids have fixed shape.
- 2.The states of matter cannot be changed.
- 3.Bats are endangered because they are seen less.

Q5. Very short answers

- 1.Name the three states of matter.
- 2.Name any two solids.
- 3.Name any two marsupials.

Q6. Short answers.

- 1.Why do you think it is important for all living organisms to reproduce?
- 2.What is moulting? What is its purpose?
- 3.Define condensation?
- 4.Write the definition of molecules?
- 5.Why does a frog lay its eggs in the water?

Q7. Long answer questions.

1. With the help of a well labelled diagram describe the water cycle in nature.
- 2.What are the differences between the tadpole and the frog?
- 3.How are vertebrates different from invertebrates? How does it help them?
