LESSON- L-7 Mapping SkillPRE ACTIVITY – Lets get started page no. 169
Exercise 7A

A. Given below is the map of a zoo. Study the map and answer the given questions.

Key

X = Entrance to the zoo

A = Deer

B = Peacocks

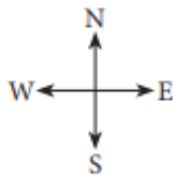

C = Pond and ducks

D = Monkeys

E = Giraffes

F = Tigers

G = Bears

1. What could be the title of the map?

Solution: Map of a zoo

2. As we enter the zoo, name the animals that are on the left side and the animals that are on the right side?

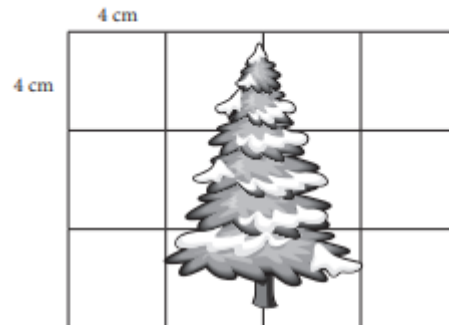

Solution: According to the key, left side we have D = Monkeys and on right we have A = Deer.

3. Fill in the blanks with the correct directions.

Solution:

- The entrance of the zoo is towards the South.
- The peacocks are towards the South-east.
- The monkeys are towards the South-west.
- The bears are towards the North-east.

B. Given below is a picture of a Christmas tree.

1. Draw a tree double the size of the given tree.

Solution: Double will be 8 cm by 8 cm

2. Draw a tree half the size of the given tree.

Solution: Half will be 2 cm by 2 cm

POST ACTIVITY : Solve the worksheet pg.no 177 ,178.
