

WORKSHEET 7
(PT 2 – TERM 1)

Class : III

SUBJECT : Maths

Prepared by: Madhuri.S

L.No: 7

Q. 1 Work out the division.

$24 \div 8$	$8 \times \underline{3} = 24$	So, $24 \div 8 = \underline{3}$
$21 \div 3$	$3 \times \underline{7} = 21$	So, $21 \div 3 = \underline{7}$
$80 \div 10$	$10 \times \underline{8} = \underline{80}$	So, $80 \div 10 = \underline{8}$
$42 \div 6$	$6 \times \underline{7} = \underline{42}$	So, $42 \div 6 = \underline{7}$
$81 \div 9$	$9 \times \underline{9} = \underline{81}$	So, $81 \div 9 = \underline{9}$
$63 \div 7$	$\underline{7} \times \underline{9} = \underline{63}$	So, $\underline{63} \div \underline{7} = \underline{9}$
$56 \div 8$	$\underline{7} \times \underline{8} = \underline{56}$	So, $\underline{56} \div \underline{8} = \underline{7}$
$55 \div 5$	$\underline{5} \times \underline{11} = \underline{55}$	So, $\underline{55} \div \underline{5} = \underline{11}$

Q.2 Work out the following division using number line.

a $45 \div 5 = \underline{9}$

b $28 \div 7 = \underline{4}$

c $32 \div 8 = \underline{4}$

d $39 \div 3 = \underline{13}$

Q.3

There are 48 plants arranged in 4 rows. Use a bar model to work out the plants in each row?

Q.4 Write the division statements by looking at the following pictures.

Q.5 Write the quotients in the outer rings.
