LESSON- 6 VOLUME AND NETS

Pre activity: - let's get started from T.B of ch.6

Exercise 6A

Find the volume of the objects given below.  = 1 cu. cm**Solution:**1. Number of cubes = 2
Therefore, volume of the object = 2 cu. cm2. Number of cubes = 4
Therefore, volume of the object = 4 cu. cm3. Number of cubes = 5
Therefore, volume of the object = 5 cu. cm4. Number of cubes = 8
Therefore, volume of the object = 8 cu. cm5. Number of cubes = 3
Therefore, volume of the object = 3 cu. cm6. Number of cubes = 5
Therefore, volume of the object = 5 cu. cm7. Number of cubes = 5
Therefore, volume of the object = 5 cu. cm8. Number of cubes = 7
Therefore, volume of the object = 7 cu. cm9. Number of cubes = 5
Therefore, volume of the object = 5 cu. cm10. Number of cubes = 7
Therefore, volume of the object = 7 cu. cm11. Number of cubes = 6
Therefore, volume of the object = 6 cu. cm12. Number of cubes = 12
Therefore, volume of the object = 12 cu. cm

Solution:

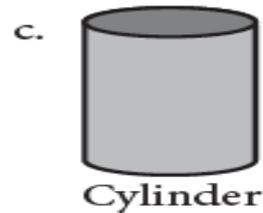

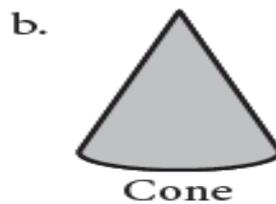

Net of cube is “b” (colour it green)

Net of a cuboid is “i” (colour it blue)

Net of a cone is “h” (colour it red)

Net of a cylinder is “c” (colour it yellow)

2. Which flat shape would be the top view of these solids?

Solution:

a. Circle

b. Circle

c. Circle

Post Activity: - write key concept from T.B of ch.6
