Ans: Harold was happy as he really enjoyed eating jellybean.

(iii) How did Harold tried to smile?

Ans: Harold tried to smile by curling one of his leaves.

Q4. Life skills and values.

(a) April’s dad Brought her a plant as a gift? What do you think is a good idea for gifting? A plant or a toy? Give reasons to support your answer.

Ans: Gifting a plant helps express various emotions and beautiful green foliage has various benefits. A few reasons are:

- **Good For Health-** Different plants have different health benefits. Gifting a plant to someone shows them that you care about their health

- **Sustainable-** Unlike other gifts, plants live a happy and long life if nurtured properly.

- **Influence Mood-** Plant influence the mood of the people are them. The green leafage and colourful flowers make people around them happier.

- **Beautiful Gifts-** Apart from having amazing health benefits, and emitting oxygen

Post activity-

(a). If you get a plant as a gift, how would you take care of it?

Ans: Water and fertilize often. Shape the plant as desired; prune it or pinch it to encourage branching. Bring the plant back indoors when night temperatures start to fall below 60 degrees. Continue to fertilize and water.
