

NAME: \_\_\_\_\_  
CLASS:IV DIV : \_\_\_\_\_  
Prepared By: SHERIL JAMES

DATE: \_\_\_\_\_  
SUBJECT: MATH  
LESSON-7

Q.1) Fill in the blanks.

1)  $1\text{m} = \underline{\hspace{2cm}}$  cm

2)  $1\text{km} = \underline{\hspace{2cm}}$  m

3) The standard unit of measurement of mass is \_\_\_\_\_

4) \_\_\_\_\_ is the standard unit of length.

5)  $3\ell$  is equal to - \_\_\_\_\_

Q.2) Solve

a) Convert the following units as stated.

1)  $4\text{ km } 359\text{ m}$  into m      2)  $2\text{ km}$  into cm      3)  $1\text{ m } 79\text{ cm}$  into cm

b) Compare and circle the greater lengths.

1)  $100\text{ m}$  \_\_\_\_\_  $1000\text{ cm}$       2)  $518\text{ mm}$ ;  $52\text{ cm}$       3)  $675\text{ mm}$ ;  $40\text{ cm}$   $75\text{ mm}$

c) Draw the lines of the given lengths.

1)  $9\text{ cm}$       2)  $14\text{ cm}$

d) Convert the following units as stated.

1)  $5\text{ kg}$  into g      2)  $3\text{ kg } 200\text{ g}$  into g      3)  $6000\text{ g}$  into kg

e) Convert the following units as stated.

1)  $1\text{ l } 175\text{ ml}$  into ml      2)  $4500\text{ ml}$  into l      3)  $6\text{ l } 150\text{ ml}$  into ml

Q.3) Word problems.

1) Ritu needs 3 and a half litres of orange juice to serve all her guests. She has 3650 ml of juice with her. Is it enough? Explain.

2) Ria cut a piece weighing 2 kg 320 g from a pumpkin that weighs 4 kg 550 g. Find the weight of the pumpkin left.
