These grading schemes are published as an aid to parents and students to indicate the requirements of the examinations. They show the basis on which examiners were initially instructed to award marks. They do not indicate the details of discussion that took place at an Examiners meeting before marking began. All examiners have been instructed that alternative correct answers and unexpected approaches in candidate's scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Grading schemes must be read in conjunction with the question papers.

SNBP WORLD SCHOOL will not enter into discussion or correspondence in connection with these grading schemes.
